**Utilities Department  
El Jobean Sewer Expansion Program**

Please circle 'YES' or 'NO' or preferred option

Your responses will help us understand your interests better and plan for the future.

Below is the revised cost and program based upon the input we have received.  
The Utilities Department will apply for grant funding and, if received, funds will be used to lower assessments.

Proposed service per each ERU	2013 estimated MSBU assessment	Current estimated MSBU assessment
Sewer service including on-lot connections and connection fees	Annual 20-year assessment \$600	
Sewer service including connection fees only*		Annual 20-year assessment \$657.50

\*On-lot connection provided by Utilities Department or a private contractor

- 1) If we proceed with an MSBU to offer sewer service, we currently estimate the annual 20-year assessment to be \$657.50 per each ERU. Do you want sewer service?

YES	NO
-----	----

Why or why not?

*can't afford it only on social security. Its hard just to pay the taxes. I have no extra to pay a sewer bill on top over even thing else*

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot connections under a loan program or a private contractor, which would you prefer?

- (a) My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2%
- b. My preference is to hire my own contractor to complete the work and finance the cost myself.

Comments: *If the sewer system comes, I don't have the money to pay for it*

This is the revised cost and program based upon the input we have received.  
The Utilities Department will apply for grant funding and if received, funds will be applied to lower assessments.

Proposed Service per each ERU	2013 Estimated MSBU Assessment	Current Estimated MSBU Assessment
Sewer Service including on-lot connections and connection fees	Annual 20 year Tax Assessment \$600	
Sewer Service including connection fees only*		Annual 20 Year Tax Assessment \$657.50

\*On-lot connection provided by Utilities Department or a private contractor

- 1) If we proceed with an MSBU to offer sewer service, we currently estimate the annual 20 year assessment to be \$657.50 per each ERU. Do you want sewer service?

YES ☐ NO ☒

Why or Why not?

*My leaching field works naturally!  
I pump it every 5 yrs. I've lived this way since 1999.  
I live in a trailer so that's what I can afford, it's way to  
expensive for chemically red tide, unnatural way!!  
(If it aint broke dont fix it...!)*

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot *one wants* connections under a loan program or a private contractor, which would you prefer? *U people*

- a. My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2% *Here!*  
b. My preference is to hire my own contractor to complete the work and finance the cost myself.

Comments: *I don't want U on My property Period!!!  
They r writing a letter to the editor + posting U on the Net.*

YES	NO
-----	----

Why or why not?

Not necessary - Just another way for commissioners to try to make themselves look good at our expense. Prove that septic tanks are polluting the harbor (not the marinas - runoff from highways + pesticides used on lawns)

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot connections under a loan program or a private contractor, which would you prefer?

- a. My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2%
- ☒ b. My preference is to hire my own contractor to complete the work and finance the cost myself.

Comments: If we do our own, does it need county approval - if so whose pockets will be lined.

Utilities Department  
El Jobean Sewer Expansion Program

Please Circle 'YES' or 'NO' or preferred option

Your responses will help us understand your interests better and help us plan for the future.

This is the revised cost and program based upon the input we have received.  
The Utilities Department will apply for grant funding and if received, funds will be applied to lower assessments.

Proposed Service per each ERU	2013 Estimated MSBU Assessment	Current Estimated MSBU Assessment
Sewer Service including on-lot connections and connection fees	Annual 20 year Tax Assessment \$600	
Sewer Service including connection fees only*		Annual 20 Year Tax Assessment \$657.50

\*On-lot connection provided by Utilities Department or a private contractor

- 1) If we proceed with an MSBU to offer sewer service, we currently estimate the annual 20 year assessment to be \$657.50 per each ERU. Do you want sewer service?

<b>YES</b>	<b>NO</b>
------------	-----------

Why or Why not?

The connection fee of \$2000 is more than should be

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot connections under a loan program or a private contractor, which would you prefer?

- My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2%
- My preference is to hire my own contractor to complete the work and finance the cost myself.

Comments:

I would like to have both options available not knowing costs of each at this time.

Proposed service per each ERU	2013 estimated MSBU assessment	Current estimated MSBU assessment
Sewer service including on-lot connections and connection fees	Annual 20-year assessment \$600	
Sewer service including connection fees only*		Annual 20-year assessment \$657.50

\*On-lot connection provided by Utilities Department or a private contractor

- 1) If we proceed with an MSBU to offer sewer service, we currently estimate the annual 20-year assessment to be \$657.50 per each ERU. Do you want sewer service?

YES	<u>NO</u>
-----	-----------

Why or why not?

*not at that Price, Set Limits  
Self. Limits  
Will Pay Until services are in and operate*

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot connections under a loan program or a private contractor, which would you prefer?

- My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2%
- My preference is to hire my own contractor to complete the work and finance the cost myself.

Comments: *Use Our own Workers*

**Sent:** Tuesday, January 19, 2016 4:35 PM  
**To:** Administrative Assistants  
**Subject:** Utilities Department El Jobean Sewer Expansion Program

#1 Yes, we want the sewer service and #2 a, we would prefer Utilities to complete the on-lot work financed through a loan program.

We do not want a septic tank in our yard. We want a direct connect to our home.

<b>Proposed Service per each ERU</b>	<b>2013 Estimated MSBU Assessment</b>	<b>Current Estimated MSBU Assessment</b>
<b>Sewer Service including on-lot connections and connection fees</b>	<b>Annual 20 year Tax Assessment \$600</b>	
<b>Sewer Service including connection fees only*</b>		<b>Annual 20 Year Tax Assessment \$657.50</b>

\*On-lot connection provided by Utilities Department or a private contractor

- 1) If we proceed with an MSBU to offer sewer service, we currently estimate the annual 20 year assessment to be \$657.50 per each ERU. Do you want sewer service?

☐ YES
 ☒ NO

Why or Why not?

WORKS PERFECT. IT IS always taken care of!

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot connections under a loan program or a private contractor, which would you prefer?

- a. My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2%
- ☒ b. My preference is to hire my own contractor to complete the work and finance the cost myself.

Proposed Service per each ERU	2013 Estimated MSBU Assessment	Current Estimated MSBU Assessment
Sewer Service including on-lot connections and connection fees	Annual 20 year Tax Assessment \$600	
Sewer Service including connection fees only*		Annual 20 Year Tax Assessment \$657.50

\*On-lot connection provided by Utilities Department or a private contractor

- 1) If we proceed with an MSBU to offer sewer service, we currently estimate the annual 20 year assessment to be \$657.50 per each ERU. Do you want sewer service?

☐ YES
 ☒ NO

Why or Why not?

*I do not want it b/c it cost too much and  
I live on a fix income and we put in new steps  
that is right after Hurricane Charley and about any other  
New System.*

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot connections under a loan program or a private contractor, which would you prefer?
- My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2%

Your responses will help us understand your interests better and plan for the future.

Below is the revised cost and program based upon the input we have received.  
The Utilities Department will apply for grant funding and, if received, funds will be used to lower assessments.

Proposed service per each ERU	2013 estimated MSBU assessment	Current estimated MSBU assessment
Sewer service including on-lot connections and connection fees	Annual 20-year assessment \$600	
Sewer service including connection fees only*		Annual 20-year assessment \$657.50

\*On-lot connection provided by Utilities Department or a private contractor

- 1) If we proceed with an MSBU to offer sewer service, we currently estimate the annual 20-year assessment to be \$657.50 per each ERU. Do you want sewer service?

YES	NO
-----	----

Why or why not?

*We cannot afford the fees and have had no septic problems. We own multiple lots so this would probably force us to sell. Almost every property in our area has 1 mobile home on 2 lots which, as I understand it, the assessment is per lot, making the cost double of the \$657.50 estimate.*

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot connections under a loan program or a private contractor, which would you prefer? *undecided*
- a. My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2%
- b. My preference is to hire my own contractor to complete the work and finance the cost myself.

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot connections under a loan program or a private contractor, which would you prefer?

- a. My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2%
- b. My preference is to hire my own contractor to complete the work and finance the cost myself.

Utilities Department  
El Jobean Sewer Expansion Program

Please Circle 'YES' or 'NO' or preferred option

Your responses will help us understand your interests better and help us plan for the future.

This is the revised cost and program based upon the input we have received.  
The Utilities Department will apply for grant funding and if received, funds will be applied to lower assessments.

Proposed Service per each ERU	2013 Estimated MSBU Assessment	Current Estimated MSBU Assessment
Sewer Service including on-lot connections and connection fees	Annual 20 year Tax Assessment \$600	
Sewer Service including connection fees only*		Annual 20 Year Tax Assessment \$657.50

\*On-lot connection provided by Utilities Department or a private contractor

- 1) If we proceed with an MSBU to offer sewer service, we currently estimate the annual 20 year assessment to be \$657.50 per each ERU. Do you want sewer service?

YES	NO
-----	----

Why or Why not?

WE HAVE A STATE OF THE ART SEPTIC SYSTEM LESS THAN 10 YRS OLD, DESIGNED FOR 4 BR AND ONLY OCCUPIED BY 2 PEOPLE. OUR LOT (PARCEL) IS 4 LOTS BUT ONLY 2 ARE OCCUPIED, WE WOULD BE OVERBURDENED WITH OVER 4 ERUS. — TOTALLY UNACCEPTABLE.

- 2) If you had a choice to use the services of the Utilities Department to perform the on-lot connections under a loan program or a private contractor, which would you prefer?
- My preference is Utilities completes the on-lot work financed through loan program at Florida Prime Interest Rate plus 2%
  - My preference is to hire my own contractor to complete the work and finance the cost myself.

Port Charlotte, FL 33953-5801  
January 21, 2016

Mr. Bruce R. Bullert, P. E.  
Engineering Services Manager  
Charlotte County Utilities  
25550 Harbor View Road  
Port Charlotte FL 33980-2503

RE: El Jobean Sewer Service Expansion

Dear Mr. Bullert:

On behalf of Mr. Garrett Owens, President, El Jobean Community League, please consider this as our formal request that you arrange an informational meeting with our members, as well as other residents of the El Jobean community, concerning the proposed extension of centralized sewer services to the El Jobean area. A "question and answer" session will be allowed at the conclusion of the presentation.

This letter will also confirm my understanding of our telephone conversation of January 20, 2016, wherein we agreed on the proposed date of January 30, 2016 at 6:30 PM to conduct the meeting. The meeting will be conducted at the El Jobean Community Center, located at 14344 Jamison Way, El Jobean FL.

It was understood that we will make every effort to notify our members of this meeting and that Charlotte County will also send notifications to residents of El Jobean.

Thank you very much for your cooperation in arranging this meeting to allow the residents to express their concerns and expectations.

Sincerely,

  
James A. Marshall, Past President  
El Jobean Community League
